Current Features

- Easy step by step instructions that assist with the submission of suspected counterfeit banknote(s) to the U.S. Secret Service.
- Users can enter multiple suspected counterfeit banknotes as a group or "batch".
- Eliminates the requirement to submit a Counterfeit Note Report (SSF 1604) with each banknote.
- Replaces the need for Counterfeit Note Reports for each banknote with a single invoice or "batch report" for the group of banknotes.
- Provides information from the U.S. Secret Service regarding when the banknotes were received.
- Provides information regarding items that were not received by the U.S. Secret Service.
- Provides information regarding items that the U.S. Secret Service determined to be genuine that are being returned.
- Provides security features of genuine U.S. currency.
- Provides investigators and bank tellers the ability to conduct counterfeit note searches.
- Provides information on the detection of counterfeit currency.
- Provides U.S. Secret Service alerts and warning notices on specific counterfeit notes.
- Provides users with additional control and awareness of the types of counterfeit received at their location.

Simply submit your counterfeit electronically, by navigating to our secure website at www.usdollars.usss.gov. First time use will require registration.

If you are unable to connect to the US Dollars website, please understand that filling out a Counterfeit Note Report is an option, but will take longer and provide far less feedback. Please find that submission form [here](#).
